PowerValue 11T G2
A cost-effective solution for maximum power protection

ABB’s PowerValue 11T G2 is a single-phase in/out, double conversion online uninterruptible power supply (UPS) that guarantees up to 10 kW per single UPS of clean, reliable power for your critical single-phase applications. As well as maintaining power to your server room, advertising display, turnstiles, lab equipment, transportation signaling systems, ATM or vending machine, the PowerValue 11T G2 also conditions incoming power to eliminate spikes, swells, sags, noise and harmonics.

Featuring voltage and frequency independent (VFI) topology, the tower-only PowerValue 11T G2 saves costs by minimizing energy losses with its double conversion efficiency of up to 95 percent (up to 98% in ECO mode). Two or three units can be connected in parallel to boost power delivery to a maximum of 30 kW or to provide redundancy.

Simple to install or maintain, inexpensive to run and with the most compact online UPS footprint available on the market, the PowerValue 11T G2 provides stable, regulated, transient-free, pure sine wave AC power with extremely tight output voltage regulation. All units can be fitted with up to four external battery modules (EBMs) to extend runtime to well over two hours. Each EBM is dedicated to its corresponding UPS and setup is easily accomplished via the LCD menu.

High reliability
- Double conversion topology protects the load from all input disturbances
- Parallelable up to three units (6-10k only) to provide system redundancy
- User replaceable batteries
- Wide input voltage tolerance

Low cost of ownership
- Scalable runtime
- High operating efficiency
- Low installation and upgrading costs
- Compact design
- Output power factor of 1.0 (6-10 kVA only)

Flexible design
- Multiple connectivity options
- Each UPS can be connected with up to four parallel battery modules for extended runtime
- Adjustable DC voltage and battery charger current
- Extended backup time models available
- Best power density available in the market segment

Efficient service concept
- Integrated manually operated maintenance bypass switch (6-10 kVA only)
- Easy setup and maintenance (plug and play)
- User-friendly display
- Remote monitoring options
PowerValue 11T G2
Product features

The PowerValue 11T G2 with its cost-effective ABB UPS technology makes a high-performance and is now available to market sectors with lower power requirements: Small server rooms, critical lab or industrial equipment, security installations and applications of a similar power class can now profit from one of 12 PowerValue 11T G2 models.

With the most compact online UPS footprint available, the PowerValue 11T G2 features true on-line double conversion. This provides a flexible output frequency and isolates the UPS from upstream disturbances so that the critical load sees only stable, well-regulated, transient-free, pure sine wave AC power.

A rated output power factor up to 1.0 (kVA = kW) means the PowerValue 11T G2 delivers 11 percent more active power than a UPS with a power factor of 0.9. The UPS is optimized for modern IT loads and helps users reduce their energy budget with its double conversion efficiency of up to 95 percent (up to 98% in ECO mode).

- Low input line disturbances: input PF ≥ 0.995 @ 100 percent linear load – THDI < 3 percent
- Flexible configuration for scalable runtime: UPS and EBMs with and without batteries (long backup)
- Adjustable DC voltage and battery charger current
- Digital charger technology provides accurate charger current setting and reduces charger ripple current
- The UPS is delivered with an inbuilt parallel board and paralleling cables. No additional hardware is required for this installation.

All this with the same guaranteed high availability and quality standards as ABB’s higher-power premium UPS models - and at the most attractive entry level price around.

---

UPS configuration

**Standard**
- Tower-type, IP20 UPS enclosure
- Single-phase in and out
- Online double conversion UPS
- Paralleling up to three units allows for increase of capacity to 30 kW or redundancy (6-10 kVA only)
- Operator and status LCD
- Wide voltage input frequency range
- Inbuilt batteries (B/B2 versions only)
- Maintenance bypass switch (6-10 kVA only)
- Plug-and-play

**Options**
- Additional battery cabinets (EBM) for scaling autonomy time
- SNMP, ModBus and AS400 interface cards for remote control and monitoring of the UPS via a web browser
- Sensors – combined with the network interface card, environmental humidity and temperature sensors can be integrated into the system and monitored remotely
- Connectivity functionality via Winpower SNMP (network management card), mini SNMP, ModBus, mini ModBus, EMP (environmental monitoring probe), AS400 and mini AS400

### INPUT
- Input voltage tolerance: 100-300 VAC (load dependent) 100-276 (load dependent)
- Input current THDi: 5% with full resistive load <3% with full resistive load
- Frequency range: 45-55 Hz / 54-66 Hz 45-55Hz / 54-66Hz (extendable to 40~70HZ at load < 60%)
- Power factor: ≥0.99 ≥0.995

### OUTPUT
- Voltage tolerance: ±1% (refereed to 230V) ±1% linear load, <5% non linear load
- Voltage distortion: <2% linear load, <6% non linear load
- Overload capacity (linear load on inverter): 60s: 106-130% load 10s: 131-150% load 300ms: ≥ 150% load 10m: 102-125% load 30s: 126 to 150% load 500 ms: ≥ 150% load
- Nominal frequency: 50 or 60 Hz
- Crest factor: 3:1 (load supported)

### EFFICIENCY
- Overall system efficiency: Up to 89% Up to 91% Up to 91% Up to 95%
- In eco-mode: Up to 97.5% Up to 98% Up to 98% Up to 98%

### ENVIRONMENT
- Protection rating: IP20
- Storage temperature: UPS: -25°C to 60°C; Batteries: 0°C to 35°C
- Operating temperature: 0°C to 40°C 0°C-40°C (up to 50°C at 50% load)
- Relative humidity: 0% to 95%
- Altitude (above see level): 1000m without derating

### BATTERIES
- Type: VRLA (valve regulated lead-acid)
- Inbuilt batteries: 2x9.4 Ah (B) 4x9.4Ah(B) 6x9.4Ah(B) 16x9Ah(B) (B2) 16x9Ah(B) 20x9Ah (B2)
- Charging current: 1.5A/3-6A adjustable 1.5A/1.5-6A adjustable 1.5A/1.5-6A adjustable 0-4A adjustable (B,B2) 0-12 adjustable (S)
- Recharge time (inbuilt batteries): 4h to 90%

### COMMUNICATIONS
- User interface: LCD display
- Optional communication cards: SNMP; ModBus; AS400; Environmental monitoring sensor probe

### STANDARDS
- Safety: IEC/EN 62040-1
- EMC: IEC/EN 62040-2
- Performance: IEC/EN 62040-3

### WEIGHT, DIMENSIONS
- Weight: 9.2/3.9 Kg 17.4/6.4 Kg 22.7/6.4 Kg 53/63/13 Kg 55.2/65.2/15.2 Kg
- Dimensions w x h x d: 144x228x356 mm 190x327x399 mm 190x327x399 mm 225 x 589 x 452 mm 225 x 348 x 452 mm
