PRODUCT LIFE CYCLE CHANGE ANNOUNCEMENT

MEGASTAR A (PCC-MICAS) after Control Upgrade (PSR2)

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Current life cycle status
The mentioned product subtype of MEGASTAR A drive is in the Limited phase since 1.1.2018 according to the ABB life cycle management model outlined above. They represent drive’s installations where the recommended Life cycle upgrade services were applied (control upgrade to PSR2).

Life cycle plan
It is planned to transfer the mentioned product subtype to Obsolete life cycle phase on 01.01.2022.

Product availability in Obsolete life cycle phase
Manufacturing of these product subtypes has stopped, and they are not available for sale.

Recommended actions
No services are available for these product subtype in Obsolete life cycle phase.

It is highly recommended to replace those drives.
