\* Classroom trainings during H1/2021 will be arranged if the COVID-19 restrictions are lifted

\*\*MicroSCADA X Training studio is an online training concept, where we give trainings on MicroSCADA X in form of an interactive webinar. More information about this on our training pages.

\*\*\*In the self-study courses, the participants will be given the training material in pdf-format and recordings of the exercises. After a week from reception of the material, a live Q&A session will be arranged to cover any questions and comments regarding the course material.
