Emergency Lighting DALI Control System
Device Location Record Sheet

This form must be used to record the location of luminaires/exit signs according to the unique address of the emergency control gear. A column is also provided to record group assignments.

Note: individual devices may not be assigned to more than one group.

—
Control panel name (max. 32 characters):

Line	User Defined ID	DALI address	Location description (max. 32 characters)	Group	Description of fitting
Example					
1	ABB Example	A 001	Main reception area	1	XT224SM DALI Surface Mount Exit Sign
1		A 001
