
END OF LIFE INSTRUCTIONS

SAGA™ WA-SERIES

Instructions are applicable for the following products mentioned below:

Good work practices and caution must be followed when disassembling the product to avoid any cuts or other injuries. Only professional electrician can disconnect the wirings.

The products covered by the WEEE directive should be returned to designated collection points, such as local municipal collection point for electrical waste as well as your local store for household appliances. The products are marked with a trash can as shown here below.

The aim of WEEE is to contribute to sustainable production and consumption by contributing to the efficient use of resources and the retrieval of secondary raw materials through re-use, recycling and other forms of recovery.

Latest information related to harmful materials according to legislation can be checked from REACH documentation found from ABB web sites.
