EntellEon Power Panelboards

ReliaGear™ neXT Power Panelboards

Summary of Life Cycle Change

ReliaGear neXT is replacing EntellEon power panels. The EntellEon power panel was removed from the empower quote tool in January 2020. Although EntellEon components are currently still available in empower flow, there is limited stock of EntellEon circuit breaker assemblies at ABB distribution centers to cover warranty replacements. Power panel accessories and enclosure stock is not guaranteed. Once this stock runs out, it will not be replenished.

There are no replacement part kits that allow Tmax XT circuit breakers to assemble into EntellEon. Also note that the EntellEon is not reverse compatible with ReliaGear neXT components and assemblies. Therefore, some MRO operations may require the replacement of the full power distribution panelboard.

Key replacement product benefits

Ready to dramatically speed up field modifications and eliminate labor-intensive bolt-on components? Then you're ready for what's next in power panels: ReliaGear neXT from ABB. In our ongoing commitment to offer superior value at every touchpoint, from ordering to installation to maintenance, we've combined the best technology of ABB and GE Industrial Solutions to bring you a true breakthrough in plug-in power panels, engineered to dramatically save time, labor and cost while helping to ensure rock-solid reliability.

Plug in and break out.

ReliaGear neXT features a modular, field-modifiable panel design and ABB's groundbreaking Tmax XT circuit breakers to simplify installation and servicing and enhance energy efficiency. Highlights include:

- A field-reversible bus stack that can be flipped 180 degrees to accommodate top or bottom feeds without extra parts.
- **Tmax XT** circuit breakers, featuring spring-loaded primary disconnects designed for fast installation and replacement with the connection security of a bolt-on.
- Cloud connectivity with built-in metering for real-time data analysis.
- IP20 finger-safe feature in select models designed to reduce the risk of contact with live parts.
- Compact circuit breakers that enable higher power density.
- The versatility of factory-assembled and unassembled deliveries.
- Easy configuration with ABB's user-friendly [empower](#) tool.
- [NECA 2020 Mike Eby's Product Picks](#)

Product returns, pricing, and other terms will follow standard ABB U.S. Electrification Life Cycle Management policies summarize below.

LCM Phase	Active	Classic	Last time buy	Limited	Obsolete
Status description	Product is fully available for sale, quoteation and promotion	Product will be replaced or phased out		New quotes no longer accepted in empower	Product is no longer available, purchase orders not accepted
Product available to order	Yes	Yes	Yes	Not guaranteed	No
Quotes can be initiated in empower	Yes	Yes	Yes	Not guaranteed	No
Product pricing agreements accepted for expansions	Yes	Yes	Yes	Yes	Yes
SPA rebate requests accepted per ABB policy	Yes	Yes	Yes	Yes	Yes
Price increases	Announced separately	Announced separately	Announced separately	Yes	Yes
Delivery Lead-times	Standard, based on product	Standard, based on product	Standard, based on product	Maybe longer than standard	Maybe longer than standard
