## Compatibilities between drive software, RLON-01 LonWorks adapter and XIF file versions

Note! It is possible to upload the XIF file from the RLON-01 module. This way you will get always the correct XIF file. This product notice is meant for purposes where XIF files are used "offline".

Drive	Drive software (Par. 3301)	RLON-01 LonWorks adapter	Which XIF files should be used? <sup>1</sup>
ACH550			
	V.151D ... V.310B	Rev. C	RLON_01ResourceFilesrevB
	V.151D ... V.310B	Rev. D or later <sup>2</sup>	RLON_01ResourceFilesrevB
	V.310F or later	Rev. C	RLON_01ResourceFilesrevB
	V.310F or later	Rev. D or later	RLON_01ResourceFilesrevD
ACS550			
	V.151D ... V.310B	Rev. C	RLON_01ResourceFilesrevB
	V.151D ... V.310B	Rev. D or later	RLON_01ResourceFilesrevB
	V.310F or later	Rev. C	RLON_01ResourceFilesrevB
	V.310F or later	Rev. D or later	RLON_01ResourceFilesrevD
ACS800			
	ASXR7140 ... ASXR7290	Rev. C	RLON_01ResourceFilesrevB
	ASXR7140 ... ASXR7290	Rev. D or later	RLON_01ResourceFilesrevB
	AS7R7291 ... AS7R7292	Rev. C	RLON_01ResourceFilesrevB
	AS7R7291 ... AS7R7292	Rev. D or later	RLON_01ResourceFilesrevB
	ASXR7300 or later	Rev. C	N/A <sup>3</sup>
	ASXR7300 or later	Rev. D or later	RLON_01ResourceFilesrevD

RLON\_01ResourceFilesrevB.zip contains common files for ACH550 and ACS550 (files named as ACx550\_...) whereas RLON\_01ResourceFilesrevD.zip contains separate files for ACH550 and for ACS550.

RLON\_01ResourceFilesrevB.zip and RLON\_01ResourceFilesrevD.zip are available for download in the ABB Library and in the IHMM.

Resource files at [www.lonmark.org](http://www.lonmark.org) site are same as the files in the package RLON\_01ResourceFilesrevD.zip.

<sup>1</sup> Resource files are zipped to a file called RLON\_01ResourceFiles.zip

<sup>2</sup> Rev. D or later supports additional network variables (RLON-01B)

<sup>3</sup> Resource files not available, upload the file from the module
