ELECTRIFICATION U.S.

Product Life Cycle Announcement
Spectra MCCBs

In accordance with the ABB global strategy, the Molded Case Circuit Breaker product line Spectra RMS entered the Classic phase of its life cycle on July 1st, 2020. This life cycle management is being done to provide our customers with the latest technology available in these product categories. For process details please visit Life Cycle Management.

Legacy Product Line (to be replaced)		Replacement Product Line	
	Spectra™ RMS Molded Case Circuit Breakers		SACE® Tmax® XT Molded Case Circuit Breakers

Please be advised July 1, 2021 will be the Last Time Buy date for Spectra molded case circuit breakers, accessories, and mounting hardware kits[1]. Any orders requested after July 1, 2021 will be accepted for Spectra molded case circuit breakers, accessories, and mounting hardware kits[1], for available inventory only on a first come first serve basis.

Prior to the last time buy of Spectra molded case circuit breakers, accessories, and mounting hardware kits[1], on June 30, 2021, all Into Stock (ITS) Pricing and Special Pricing Agreements (SPA) for all customer types will be expired.   This means all purchases of Spectra molded case circuit breakers, accessories, and mounting hardware kits, starting on July 1, 2021, will be at BOOK PRICING.

No special pricing agreement rebates will be honored for end-customer sale dates of 7/01/21 or later. Paper work for end-customer purchases prior to 7/01/21 will have the standard 90 days to be submitted.

In order to support our current customer projects and installations we will continue to offer a limited amount of high runner Spectra Accessories. The list of accessories (31) which will remain until a later announcement can be found in the Appendix at the end of this announcement. All other Spectra Accessories will follow the Spectra Life Cycle Management schedule outlined in this announcement.

SACE® Tmax® XT Retrofit Kit for Spectra™ Bolt-on Panelboards/Switchboards are available in empower to meet Spectra field replacement needs.
