

PRODUCT HIGHLIGHTS

Comfort Crimp® TBM45S compression tool

Setting the standard for manual crimp tools.

Color-Keyed®

The Color-Keyed® Comfort Crimp TBM45S compression tool provides the user the safest, easiest-to-use crimping hand tool in the industry, offering maximum long-term comfort and a reliable crimp every time.

Key differentiating features

- **Integral color-coded die wheel** — Reduces time-consuming die exchanges with fast, easy, range-taking die selection.
- **Patented Shure Stake® mechanism** — Proprietary design ensures a proper crimp every time by not releasing the lug until a proper crimp cycle has been completed.

- **Comfort grip** — Up to 75% lower force required than competitive tools through patented crimping mechanics, ergonomics and over-molded cushion grips. This significantly reduces user strain, making the Color-Keyed Comfort Crimp TBM45S the safest and easiest-to-use tool on the market.
- **Crimp Assist® handle** — Special foot at the bottom of the handle stabilizes the tool on a workspace surface, providing significant leverage and reducing strain when crimping larger lugs.

Applicable industries

Chemical

Data centers

Oil and gas
