UniCare
UniCare offers an advanced solution for your switchgear addressing important requirements of the future. With our specifically designed Service Kit you will get all necessary spare parts for a fast replacement in one package. UniCare includes the most frequently replaced components, tools for interlock tuning and for common maintenance in a waterproof and robust design.

Facts
Operating a power grid or powering a process needs reliable equipment, which is given by ABB switchgear. There are periodic and unforeseen events occurring, due to different reasons like wrong handling or external impacts that may damage the switchgear. To ensure uptime of the customer’s processes, the availability of proper parts and tools for exact product is a core element of every operational planning. Therefore ABB offers UniCare, a kit which precisely fits to your switchgear.
