MEGADRIVE CASCADE (Type PAD-PD5801)

1. CURRENT LIFECYCLE STATUS

The Megadrive Cascade product, identified as Cascade PAD-PD5801, is in the Obsolete Phase since beginning of 2009 according to the lifecycle model outlined below.

2. SUPPORT AVAILABILITY

During the obsolete phase ABB can not guarantee availability of product support within reasonable cost or technically:

- Sale of Cascade converter parts is limited to available inventory
- Sale of Cascade repair services is limited to component availability.

3. RECOMMENDED ACTION

It is recommended that Cascade product customers migrate to replacement products. For information about replacement possibilities of the cascades go to <http://www.abb.com/driveservices/> and/or contact your local ABB organisation.

4. FURTHER INFORMATION

For further information on the life cycle model and available services, please contact ABB Switzerland Ltd, Medium Voltage Drives by E-mail: mvac.supportline@ch.abb.com.
