

## Course description

# G3860e

# Automation Builder and drive application programming Internet course

## Course type

Internet course

## Course Duration

The course duration is approximately 15 minutes.

## Course Goal

The goal of this course is to give a general overview of various technical features of drive application programming using ABB Automation Builder.

## Student Profile

This course is intended for all ABB personnel.

## Prerequisites

- An Internet connection. The recommended browser is Microsoft Internet Explorer.

## Course Objectives

Upon completion of this course, you will be able to:

- List the benefits of drive based IEC programming with ABB Automation Builder
- Have an overview of various technical features of the ABB Automation Builder.

## Main Topics

- Benefits of drive based IEC programming
- Technical features
- User interface
- Parameter interface
- Drive application programming with ABB Automation Builder

## Low voltage drives training
