RELEASE NOTES

# FIM UMC Edition – General Information

## Important note:

This document is meant to inform about bugs or feature changes within the **FIM UMC Edition software**. For details about the device packages see the according document (1SAC200266W0001).

## Scope of release:

FIM3.0.1 and FIM3.1

## New or modified functionality (includes, but not limited to):

### Feature changes:

-

### Bugs:

- When selecting the language in the settings only English and German is possible to select. Even though additional languages are featured within the device packages. This bug is meant to be removed starting with FIM3.2 (May 2025). It is recommended to work with the English settings for now.
