6801 Industrial Drive
Mebane, NC
27302

Offering
Electrical equipment
for industrial and
commercial sites

Number of employees
630

Operational since
1972

What we do in Mebane

Manufacture a variety of electrical equipment used in commercial and industrial applications. Electrical equipment produced in Mebane include power panels and switchboards, motor control centers, automatic transfer switches, and lighting panels. ABB's electrification equipment improves overall safety and performance of a facility's electrical system. Mebane is also home to one of ABB's Customer Experience Centers—part of a \$29m investment to upgrade and expand the facility by 200,000sf—where customers interact with, learn about, and experience ABB's products and digital solutions alongside subject matter experts.

Who we serve

The electrical equipment manufactured in Mebane enables safe, reliable and efficient distribution of power to industrial and commercial buildings globally including data centers and hospitals. Mebane's products provide stable and uninterrupted power to critical operations, where reliable power is a must.

ABB in the U.S.

ABB is a leading global technology company that energizes the transformation of society and industry to achieve a more productive, sustainable future.
