A smarter space for your installation ideas

UK600 enclosures

⊕

- **Up to 200 % additional wiring space**
- **Available in up to 5 rows**
- **Project phase packaging**
- **Wifi doors with plastic insert**

UK600
The smart solution to realize all your installation ideas

Next to the product quality, the flexibility of the enclosures is of utmost importance for installers in their daily business. The clever room concept and many detailed solutions of the new UK600 guarantee simple, safe and flexible installation that saves up to 10 % in time. Different size and configuration options combined with clever connection also allow adapting the room offer to all possible requirements. This guarantees that the installer is optimally prepared for the needs and wishes of his customers with the UK600.
