The home of charging
Introducing Terra AC wallbox

High-value quality, futureproof flexibility, safety and protection. It wasn’t built today. It was built 130 years ago.

For more than a century ABB has been a pioneer in electrification and mobility.

1891
First company to transmit high voltage power

1944
Develops cutting edge high-speed locomotive technology

2012
First to roll out nationwide DC charging networks

2016
Brings first eBus chargers to the EU

2020
Launches Terra AC wallbox

To serve a growing market

Passenger EV sales will rise to 28m in 2030 and 56m by 2040*

Electric vehicles will represent 57% of global passenger car sales by 2040*

We are trusted by the world’s biggest brands to provide smarter mobility solutions from highway to home. This means we know exactly what goes into creating a superior EV home charger.
