

## Course description

# G3851e

# FSO-12 safety functions module configuration Internet course

## Course type

Internet course

## Course Duration

The course duration is approximately 30 minutes.

## Course Goal

The goal of this course is to present examples of configuring safety functions in the FSO-12 safety functions module.

This course is a mandatory requirement for attending FSO-12 configuration hands-on courses.

## Student Profile

This course is intended for persons who configure or commission safety functions with the FSO-12 safety functions module, and persons who service drives with the FSO-12 safety functions module.

## Prerequisites

- G3850e FSO-12 safety functions module fundamentals, Internet course
- An Internet connection. The recommended browser is Microsoft Internet Explorer.

## Notes

If you have no experience of working with drives, it is highly recommended to take a hands-on course in addition to this course, to be able to utilize the drive to its full potential.

## Course Objectives

Upon completion of this course, you will be able to:

- Mount and connect the FSO-12
- Configure safety functions

## Main Topics

- Creating safety functions
- Mounting the FSO-12
- Connecting inputs & outputs, including examples
- Configuration
- Verification & validation, documentation
- Service

## Low voltage drives training
