

SPARE PARTS AND REPAIR SERVICES

# BOGOHO savings on hundreds of repair services

Now through April 30, 2019

## Reveal

Unearth spares that are out of warranty

## Rebuild

Restore to like new condition

## Reconnect

Plug into industry leading warranty

Plugging a part with unknown integrity into a critical process is an unnecessary risk. Clean out those cabinets, closets and containers to reveal those forgotten items now and prevent costly emergencies.

ABB Repair Center professionals will rebuild, remanufacture and restore units to like new condition. Only ABB can implement Engineering Change Notices and firmware upgrades for ABB heritage system parts.

Plug in with confidence knowing ABB stands behind your critical manufacturing process with decades of experience, a leading 2 year warranty on repairs, and a world-class repair cycle time typically two weeks or less.

## Save 50%

on repair service when combined with another repair of equal or greater value at the low, regular list price.
