

# Transport infrastructure operators can enjoy significant savings in operations and maintenance.

Asset performance management makes it happen.

## Transportation organizations need to understand and gain control of:

## Business challenges

## Opportunity

Transform your network with a fleet- and route-wide analytics platform to improve processes through risk-based optimization

## Asset performance management with ABB

Improve decisions and response times with predictive analytics

## Results and benefits

## Case study: leading mobility and logistics provider

**700** daily long-distance rail services  
**340K** passengers per day  
**20+** years in operation

### RESULTS

## Learn more

ABB Asset Performance Management (APM) is designed to provide health and performance insights to prevent critical asset failures while optimizing asset lifecycle costs. Find out what it can do for you!
