Westville, Oklahoma
Facility Overview

What we do in Westville
Manufacture AC and DC industrial electric motors for a wide variety of industrial applications, including pumps, fans, compressors, and material handling. We also produce brushless servo motors which are designed for high levels of precision, acceleration and torque.

Who we serve
The AC motors we produce in Westville are used by a broad variety of producers including agriculture, food minerals, chemicals, energy and general manufacturing. DC and servo motors are used by medical device companies and high precision manufacturing like packaging, distribution and robotics.

ABB in the U.S.
ABB is a pioneering technology leader that works closely with utility, industry, transportation and infrastructure customers to write the future of industrial digitalization, increasing productivity and boosting efficiency.
