The aim of this course is to familiarize the participants with the configuration concept and methods of the COM600 series. The participants will configure COM600 series including Gateway engineering and remote communication between COM600 and SCADA system.

**Objectives**

After this course the participant will be able to:

- Understand the configuration concept and methods of the COM600 series.
- Use the Communication Engineering Tool
- Create the simple project and connect REF615 to COM600 with IEC 61850

**Prerequisites**

Good knowledge of communication techniques.

**Topics**

- Introduction to COM600
- Available communication protocols
- COM600 Communication Engineering Tool
- COM600 configuration step by step

**Participant profile**

System and maintenance engineers
