PRODUCT LIFE CYCLE STATEMENT

ACS600 Single Drives
ACS607/627 R11i to R12i (630 to 3000 kW)
ACS617/677 R8i to R12i (200 to 2800 kW)

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Current life cycle status
The ACS607/627 R11i to R12i (630 to 3000 kW) and ACS617/677 R8i to R12i (200 to 2800 kW) are in the Classic phase since 1.1.2004, according to the ABB life cycle model outlined above.

Life cycle plan
It is planned to keep ACS607/627 R11i to R12i (630 to 3000 kW) and ACS617/677 R8i to R12i (200 to 2800 kW) in the Classic phase at least until the end of 2021, after which they will be transferred to Limited phase.

Product availability in Classic phase
The product is no longer available.

Please contact your local ABB representative for more information on available Retrofit solutions or replacement products.

Recommended actions
It is recommended to follow the preventive maintenance program.

Full range of life cycle services and support are available during the Classic phase.
Service availability
See details at new.abb.com/drives/Services and contact your local ABB representative for availability.

Further information
