

SALES RAMP DOWN ANNOUNCEMENT

DCS800

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Product availability

DCS800 availability will be ramped-down according to the schedule outlined below:

Product type	Last order	Last delivery
DCS800	31.12.2022	31.3.2023

Affected are all product variants:

- DCS800-S0x modules
- DCS800-A0x cabinets
- DCS800-Exx panel solutions
- DCS800-R0x rebuild and upgrade kits

Latest generation product DCS880 is available for replacement purposes. Contact your local ABB representative for availability and optional devices.

Life cycle status

DCS800 is in the Classic phase according to the ABB life cycle model outlined above. Also, in classic phase complete new modules as replacement are available for purchase.

The plan is to transfer DCS800 to the Limited life-cycle phase 1.1.2027.

Recommended actions

No actions are required. Full range of life cycle services and support are available during Classic phase.

Service availability in Classic phase

See details at new.abb.com/drives/Services and contact your local ABB representative for availability.
