ABB Ability™ Data collection for safety management

Safety App

Report a hazard in five simple steps

1. Observe the hazard (or near-miss)
2. Categorize it
3. Take a photo
4. Describe the risk
5. Send

Manage the hazard digitally with the Safety App

- Hazard report received
- Hazards prioritized by importance
- Right contact person assigned to resolve the hazard
- Data-driven decisions support corrective action
- Hazard resolution tracked and confirmed
