

Number 1

	Page
Industrial IT ... The next way of thinking	4
Asset Optimization: challenging the next millennium	11
Smart Enterprise™ – putting pulp and paper mills in 'Autopilot' mode	15
Improving motor efficiency for a better environment	20
Marintronics™ optimizing marine power and automation systems through industrial IT	28
ABB Information & Energy Management systems support Mexico's growing demand for electric power	35
New small robot broadens applications spectrum for industrial automation	42
Interstand Dimension Control implementing U-gauge technology in rod and bar mills	47
DMI – a new milestone in the development of DC motors	54
Vacuum interrupters with axial magnetic field contacts	59
Interphase Power Controllers complementing the family of FACTS controllers	65

Number 2

	Page
Offshore technology at the threshold of a new era	7
R&D challenges and solutions for OGP Downstream industries	15
ABB solutions meeting deepwater drilling challenges	19
ABB develops industry's first portfolio of deepwater solutions	24
Optimizing pressure in subsea pipes with HIPPS	28
Controlled subsea electric power distribution with SEPDIS™	36
ADMARC – advanced downhole monitoring and reservoir control	43
MEC: Micro-Engineered Catalyst systems	49
An innovative zeolite synthesis technology with great promise for the petrochemical world	56

Page

Life Cycle Assessment – looking at Powerformer™	63
New solid acid alkylation process for motor gasoline production	71
3-D CFD prediction playing a key role in the aerodynamic design of high-performance fans	77
Biodegradable insulating fluid based on vegetable oils	85

Number 3

	Page
Power transmission and distribution in the midst of rapid change	7
Distributed power generation and creating a 'virtual utility' to manage it	13
Microturbines: speeding the shift to distributed heat and power	22
Windformer™ – Wind power goes large-scale	31
Power semiconductors for transmission and distribution	38
Power Quality: The new paradigm for MV power distribution	49
LoPack: IGBT 'six-pack' module as standard for a new era	57
Dryformer™ – a new type of oil-free power transformer with low environmental impact	59
LIFT – a vehicle for low life cycle costs	65

Number 4

	Page
Test collision control with advanced ABB technology	5
Improving power quality monitoring for utilities	12
Power NetAnalysis: Optimizing industrial networks	20
SF ₆ or vacuum? Choosing the right MV circuit-breaker	26
High-voltage cable technology	35
Condition-based evaluation: A new platform for power equipment life management	45
Taming slug flow in pipelines	55
