Primary terminal
T=20 mm
Material: Nickelplated brass

L terminal
For cable D=8 to 15 mm
Material: Aluminium

Top plate
1) Holes must be drilled through gusset

Total mass: 300 kg max
Mass of oil: 50 kg max

Creepage dist. nom. 13980 mm.
Grey silicon rubber insulator

Static withstand test load 1500 N and dynamic withstand load 2100 N applied in any direction on primary terminal
