

Machine Tool Transformers T&X Series

ABB is pleased to announce the release of a new line Machine Tool transformers. The T&X Series join our comprehensive family of Machine Tool and Control Power transformers that provide long life, quiet and reliable operation.

Application

Machine tool transformers provide a means of stepping down voltages for machine tool control devices and industrial control panels.

Designed and built to provide voltage to the load while accommodating the high current levels present at inrush.

Target markets

Available for sale in the United States and are UL listed.

- Selected units are cUL or CSA
- Selected units are CE rated

Product highlights

Safe, smart, and sustainable

Safe

Pressure plate terminals ensure secure connections.

Smart

Slotted installation feet help make installation easier.

Sustainable

Copper magnet wire provides the highest quality and efficient operation.

Technical characteristics

- 50/60 Hz
- 45 – 5000 VA
- RoHS compliant
- REACH compliant
- Epoxy encapsulated coils up through 750 VA
- Epoxy resin impregnated coils 1000 VA to 5000 VA
- Laminations of high-quality silicon steel
- Molded-in terminals
- IP 20 Touch safe covers available as accessories
- UL E2739
- Selected units are either cUL or CSA
- Selected units are CE rated

Production site

United States

Availability

Order now via [empower flow](#)

Contacts

- ABB sales agent or representative
- ABB regional sales managers
- Patti Hussey, US Product Marketing Manager
- Frank Basciano, Global Product Manager
