Enhancements for drives

ACS880 wind turbine converter support

The below ACS880 wind turbine converter loading packages are supported:

Drive type	Application name	Loading package	Loading package version
ACS880	Generator side control program	WGEL	WGEL2_v3.40.55.1
ACS880	Grid side control program	WGSL	WGSL5_1_v3.40.55.1 WGSL5_2_v3.40.55.1

Unified translation support

The Powertrain portal supports unified translation based on the preferred language selection. The Drive signal names, static text, and Email alerts are displayed in the selected language.
