

Low Voltage Product Life Cycle Plan

Full range of life cycle services and support

Limited range of life cycle services and support

Replacement and end-of-life services

Life cycle plan 2023

Issued by	Smart Power, Electrification business (ELSP)
Date of issue	31/08/2023
Valid until	31/12/2023
Distribution	Public (pdf)
Document number	1SDC210505M0201
Revision	28
Country Validity	Global

Further information

The ABB LCM (Life Cycle Management) model is designed to manage an orderly transition to replacement products or to choose from various lifetime extending services.

At the same time the model ensures access to continuous support for our customers.

NOTE : LCM stats may change on country basis. Please visit Service for low-voltage products web page to verify situation in your country (see link below)

Index of document

Circuit Breakers	
Digital Solutions	
Electronic Relays and Controls	
External Digital Units	
Installation Contactors	
Limit Switches	
MMS	
Motor starters & Contactors	
Nema Enclosed Products	
Pilot devices	
Power Enclosures (IEC)	
Power Protections (UPS & power conditioning)	
Safety Products	
Softstarters	
Switches&Fusegear	
Service Products	

[For more information on low voltage products life cycle management and available services please visit Service for low-voltage products web page.](#)

Phases summary:

Active development and promotion phase

- Product has been released for sale
- Actively promoted
- Product is actively sold
- Product is actively maintained with enhanced through R&D or product improvements
- Fully supported of after sales network

Product maintenance phase

- No further enhancements
- Product is no longer actively Promoted, =>12month advance notice through sales channel
- Product will be phase out
- It is still available for sale - mainly for spares and expansions of existing systems, supply under frame agreements, in case of space constrains, required functionality not yet covered by the new product, license agreements
- Price may increase (e.g. due to lower volume, vendor component costs, etc.)

Primarily service support

- The manufacture of spare parts and accessories is guaranteed
- new apparatus availability may continue, but is not guaranteed
- increasing use of refurbished apparatus or retrofitting kits
- no new development to replace obsolete components
- Technical support (field service, phone support, etc) continues, but may diminish over time with decreasing installed base

Obsolete phase

- ABB cannot guarantee availability of product support for technical reasons or within reasonable costs.
- No longer manufactured as a complete product; only component spares, refurbished apparatus, retrofit and/or revamping solutions available
