FUNCTIONAL OVERVIEW

MWS/MWB
Complementary work space

MWS and MWB are designed for secondary applications, such as administrative work, to complement operator desks like Cergo, but match their features, configurability, and quality.

Built with the same materials, and in a similar form factor as all other CRS products. This makes for sturdy desks built to last in industrial 24/7 environments, and to match new developments with long term upgradeability.

Key features includes:
- Adjustable light, always centered above workplace
- Monitor holder for best alignment of monitors
- Shelf that keeps computers off the floor and reduce cabling problems with height adjustment
- Protective back panels in noise reducing material
- Optional motorized height adjustability

For details on available accessories, see the Cergo Accessories Overview.
**Standard desk models**

- With optional motorized base 100-240V 50-60Hz
- Frame and columns in RAL 9006, white aluminum
- Level adjustable feet in RAL 7015, slate gray
- High pressure laminate top board:

  - Formica 7927 Folkstone Light Grey
  - Formica 7921 Birch

Other colors or specifications are available on request.
