Purpose and function

This system is designed for WC facilities for people with reduced mobility and others in need of assistance.

When the alarm button is pressed or the pullcord is pulled, the indicator light outside the WC facilities will blink and the buzzer will sound intermittently. The indicator light can detect which WC the alert is coming from and it has a buzzer that can be reset with the button. Each button has an indicator light that lets the user know that the request for assistance has been successfully made. The alert remains in effect until it is reset with the button beside the WC door.

Accessible toilet alarm (FEH2001) with follow-up alarm

- At least one call button at the floor boundary
  - Button
  - FAP2001 EAN: 6410070607216

- The cord should be left long enough to touch the floor
  - Pullcord button
  - FAP3002 EAN: 6410070607261

- Alarm, single-loop
  - Alarm, single-loop
  - FEH2001 / EAN: 6410070607179

- Indicator light panel
  - Indicator light panel
