

ELECTRIFICATION U.S.

PowerMark™ Gold & PowerMark™ PRO Load Centers & Accessories

Entering the Classic Phase effective immediately
Entering the Limited Phase October 3, 2024

ReliaHome™ Load Centers, Main Circuit Breaker Kits & Accessories

Entering the Active Phase October 3, 2024

In accordance with the ABB global strategy, these products are in the life cycle management process. For process details, please visit: Life Cycle Management (<https://electrification.us.abb.com/life-cycle-management>).

In anticipation of the ReliaHome load center launch, ABB's newest load center offering, existing PowerMark Gold (PM Gold) and PowerMark PRO (PM PRO) load centers are moving into classic lifecycle status effective immediately.

ABB will no longer accept new empower Quote/ Project orders for PM Gold and PM PRO after the last time buy date of October 2nd, 2024. Existing empower configurator quotes must be released on or before October 2nd, 2024. After this date, all PM Gold and PM PRO must be re-engineered to the new ReliaHome load center, which will be in the empower load center configurator on October 3rd, 2024.

Empower Flow/VMI/EDI: ABB will no longer accept orders for PM Gold and PM PRO after the last time buy date of October 2nd, 2024, unless there is available inventory for that specific catalog number. Orders entered before October 2nd, 2024 for PM Gold or PM PRO that cannot be fulfilled must transition to closest equivalent ReliaHome P-Series or T-Series with written customer approval.

PM Gold and PM PRO shipments will continue to ship with ABB's standard terms and conditions, including freight and warranty. Products will carry the standard warranty as outlined in the terms and conditions, and replacement parts will be available to support the warranty period.

ABB reserves the right to cancel or modify orders outside of historical buying patterns.

Load Center Accessories

PM Gold and PM PRO accessories will continue to be offered under ABB ReliaHome branding as they are forward and backward compatible – meaning they can be used with PM Gold and PM PRO load centers as well as ReliaHome load centers. New accessories for ReliaHome P-series and P-series+ will become available October 3, 2024. These accessories will have the following SKUs: PBS, PBS22, PCARE, PD60, PHDWRKIT, PGENLCK22, PTHLRK1, PTHLRK2, PLTCHGR, and TSP61W. The following PM Gold accessories are entering the classic phase effective July 19, 2024: THQLX1, THQLRK1, THQLRK4.

Main Circuit Breaker Kits

The table below shows existing and new main circuit breaker kits. New main circuit breaker kits are as follows: THQMV***F, TQMH000F, THQMH100F, and THQMH125F. The table also shows compatibility with existing and new load centers.

	Existing Load Centers		New ReliaHome Load Centers	
	PM Gold	PM PRO	T-Series	P-Series / P-Series+
Main Circuit Breaker Kit (150-225 Amps)	THQMV***E ¹	THQMV***E ¹	THQMV***E ¹	THQMV***F ¹
Main Circuit Breaker Kit (up to 125 Amps)	TQMH000	TQMH000	TQMH000	TQMH000F ²
				THQMH100F
				THQMH125F

¹*** designates amperage

² Order appropriate THQL 10kAIC or THQL 22kAIC breakers separately

ABB branded ReliaHome load centers, main circuit breaker kits, and accessories will be available to order on October 3, 2024. The appendix outlines product catalog nomenclature for load centers.

The full portfolio can be found on this [Load Center Migration guide](#).

Recommended Cross Reference

Recommended cross references found on the [Load Center Migration Tool webpage](#) are functional equivalents. Verify needed specifications prior to ordering.

Entering Classic Phase

PowerMark™ Gold

Active October 3, 2024

ReliaHome™ T-Series

PowerMark™ PRO

ReliaHome™ P-Series & P-Series+

Migration benefits: PowerMark Gold & PRO -> ReliaHome Load Centers

- Simplified offering: The ReliaHome™ load center standard and premium offerings are compatible with all GE and ABB branded 1” circuit breakers, including tandem and quads, allowing for simplified stocking.
- Ease of installation for your customers: The new ReliaHome™ P-series and P-series+ load centers (>16 circuits) are easier to install. Product features contribute to reinstallation time with plug-on neutral design, maximized gutter space, and elevated neutral bars.
- Dedicated support: Customers benefit from ABB’s 130+ years of electrical innovation and expertise and the dedicated, local residential experts to provide support, tools, and product resources.

LCM Phases	Active	Classic	Last time to buy	Limited	Obsolete
Status description	Product is fully available for sale, quotation and promotion	Product will be replaced or phased out	Last date purchase orders will be accepted for above current on-hand inventory levels	New quotes no longer accepted in empower	Product is no longer available, and purchase orders not accepted
PM Gold		Jul. 19, 2024	Oct. 2, 2024	Oct. 3, 2024	Oct. 3, 2025
PM PRO		Jul. 19, 2024	Oct. 2, 2024	Oct. 3, 2024	Oct. 3, 2025
ReliaHome T Series, P Series, and P Series+	Oct. 3, 2024
