Offering
Wire and cable
management

Number of employees
303

Operational since
1965

What we do in Athens

Design and manufacture wiring and cable management equipment for homes, buildings, industrial facilities, and public infrastructure. With over 250 million pieces of electrical equipment produced each year in Athens, our metal and plastic conduits, framing and trays, and boxes manage the wires and cables hidden behind building walls. Well-known brands in the industry like Steel City, Kindorf, Ty-Duct, and others are made in Athens.

Who we serve

Our products are sold through electrical distributors and large retail outlets nationwide and installed by local electrical contractors.

ABB in the U.S.
