Z400
PGC5000 Gas Chromatograph

Gain a complete understanding of the operation the PGC5000.

Course type and methods
This is an instructor led course with approximately one third consisting of hands-on activities.

Student Profile
This training is intended for customers, analyzer technicians and service engineers as a basic course for the understanding and operation of the Model 5000 Process Gas Chromatograph.

Prerequisites
There are no prerequisites for this course. Experience with process gas chromatograph would be a plus. This course is a prerequisite for PGC5000-TRB.

Course objectives
Upon completion of this course, students will have an understanding of the operation of the PGC5000 Process Gas Chromatograph. In addition, they will be able to utilize the unique benefits and features of the analyzer.

Main Topics
- Basic Chromatography
- PGC5000 Operation
- Configuring the system
- Entering and editing analyses
- System start-up

Duration
The duration is 3 days.
