

The versatile solution that works the way you want it to work

ABB's new range of modular transmitters for water analysis

With their modular design, intelligent diagnostics and full approvals, our AWT420 advanced water transmitters offer a flexible, high performance solution for a wide range of industrial applications, from water and wastewater through to chemical and petrochemical. Packed with a host of features including Bluetooth® connectivity, dual PID control and EZ-Link™ sensor connection, water analysis has never been easier.
