# Busch-Presence detector KNX

## Agenda

---

### Overview

- Assortment
- Detection
- Function

Variants for different applications,  
Busch-Presence detector Corridor NEW!!!

Technical details

ETS Parameter

ETS App: Bus Update

---

# Overview

# Busch-Presence detector KNX

## Objectives

### Motivation

- Constantly growing market
- Customer demand for smaller presence detectors
- Response to current competitive situation

### Target

- To be best in class - no compromise in detection quality
- New flat line design
- New applications for cost efficiency
- Native ETS4 application with update via bus
- Variations and options in functions, price and installation heights

# Busch-Presence detector KNX

Tailored solution

Reliable and efficient

The ideal manager. For large-scale offices, dark corridors and more.

## Leading technology.

Modern building has various demands of automatic assistance. Busch-Presence detectors units perfectly control not only lighting systems but also heating, ventilation and air-conditioning systems. With the utmost efficiency. They become active at the slightest movement. Result: Connected loads are available precisely when they are required. Without having to pre-define individual habits of use or work processes.

# Busch-Presence detector KNX

## Variants for different applications

Comfort, efficiency and safety.

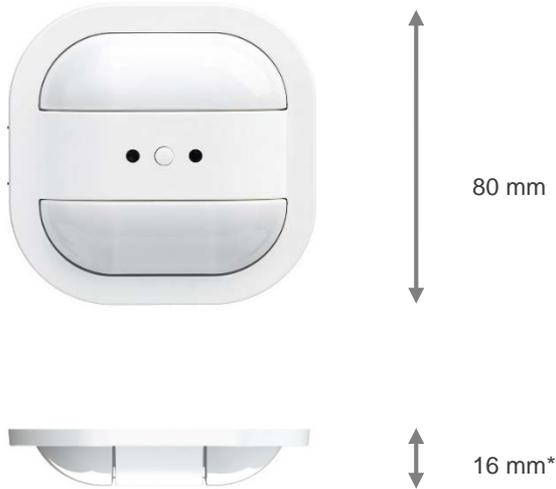

The versions **Presence\*** KNX, **Mini\*** KNX, **Sky** KNX and **Corridor** KNX allows to meet the need of modern buildings and covers the requirements of individual technical assistance.

Variation in technical functions, size and detection range of the three presence detectors offers a wide field of applications.

\* Available as basic version and premium version with extended functionality.

# Busch-Presence detector KNX

## Variants for different applications

simple ceiling mounting by spring clips

\*) visible height

### Busch-Presence detector mini KNX

- 8m presence detection at 3m installation height  
(up to 10,5m depending on installation height)
- 2 power off stages (EN15232)
- integrated monitoring function
- with integrated KNX bus coupler

### Basic

- 2x channels
- 2x constant light switches

### Premium

- 4x channels
- HVAC function
- 2x 2-channel constant light controller
- 4x constant light switches
- integrated RTC
- 12/24 IR channels
- 5 logic channels
- 2x brightness sensor inputs

# Busch-Presence detector KNX

## Variants for different applications

simple ceiling mounting by spring clips

\*) visible height

### Busch-Presence detector KNX

- 12m presence detection at 3m installation height  
(up to 16m depending on installation height)
- 2 power off stages (EN15232)
- integrated monitoring function
- with integrated KNX bus coupler

### Basic

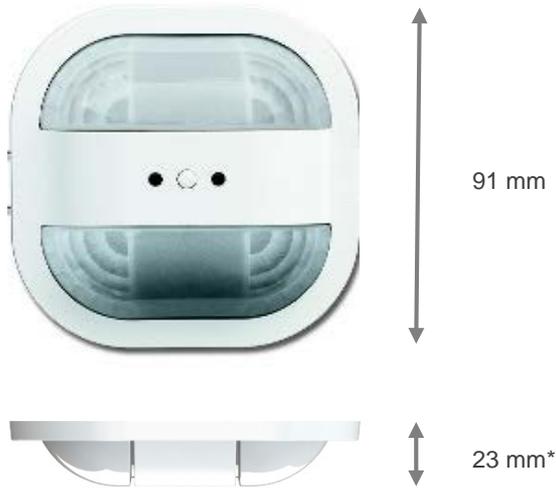

- 2x channels
- 2x constant light switches

### Premium

- 4x channels
- HVAC function
- 2x 2-channel constant light controller
- 4x constant light switches
- integrated RTC
- 12/24 IR channels
- 5 logic channels
- 2x brightness sensor inputs

# Busch-Presence detector KNX

## Variants for different applications

simple ceiling mounting by spring clips

### Busch-Watchdog Sky KNX

- 24m detection at 12m installation height
- 2x channels
- 2 power off stages (EN15232)
- integrated monitoring function
- constant light switch with max. 2 outputs
- with integrated KNX bus coupler
- activating the programming mode also via IR remote controller

Made for high ceiling installations.

The right functions for the right purpose.

\*) visible height

# Busch-Presence detector KNX

## Variants for different applications

simple ceiling mounting by spring clips

\*) visible height

### New

#### Busch-Presence detector Corridor KNX

- 30m presence detection at 3m installation height
- 2 power off stages (EN15232)
- integrated monitoring function
- with integrated KNX bus coupler

#### Basic

- 2x channels
- 2x constant light switches

#### Premium

- 4x channels
- HVAC function
- 2x 2-channel constant light controller
- 4x constant light switches
- integrated RTC
- 12/24 IR channels
- 5 logic channels
- 2x brightness sensor inputs

# Busch-Presence detector KNX

Variants for different applications

**Surface-mounting box**

**Busch-Presence detector mini KNX (premium)**

- 80mm x 80mm x 35mm
- with bayonet lock

**Surface-mounting box**

**Busch-Presence detector KNX**

**Busch-Watchdog Sky KNX**

**Busch-Presence detector Corridor KNX**

- 91mm x 91mm x 33mm
- with bayonet lock

# Busch-Presence detector KNX

## Slimline design

Being present without being seen.

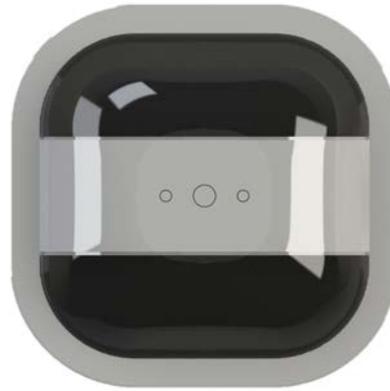

The flat design allows to blend in into the interior by full presence detection.

# Busch-Presence detector KNX

## Colour design

white

silver with black lens\*

### Colours and shapes

Perfect integration into the interior for the most applications.

Assistance without disturbance.

Focused variety.  
Reduced to the max.

\* Colour not available for Busch-Watchdog Sky KNX.

# Busch-Presence detector KNX

## Assortment overview

### Busch-Presence detector mini KNX

6131/20-24-500 alpine white  
6131/20-183-500 aluminium silver

### Busch-Presence detector mini premium KNX

6131/21-24-500 alpine white  
6131/21-183-500 aluminium silver

### Busch-Presence detector KNX

6131/30-24-500 alpine white  
6131/30-183-500 aluminium silver

### Busch-Presence detector premium KNX

6131/31-24-500 alpine white  
6131/31-183-500 aluminium silver

### Busch-Watchdog Sky KNX

6131/40-24-500 alpine white

### Busch-Presence detector Corridor KNX

6131/50-24-500 alpine white  
6131/50-183-500 aluminium silver

### Busch-Presence detector Corridor premium KNX

6131/51-24-500 alpine white  
6131/51-183-500 aluminium silver

### Surface-mounting box for Presence

6131/39-24-500 alpine white  
6131/39-183-500 aluminium silver

### Surface-mounting box for Presence mini

6131/29-24-500 alpine white  
6131/29-183-500 aluminium silver

Fits not into BS and VDE wall boxes.

Recommendation: HaloX-O wall box from Kaiser (art.no. 1290-40) with corresponding cover plate (1290-47 or 1290-85 for fair faced concrete)

# Busch-Presence detector KNX

## Detection overview

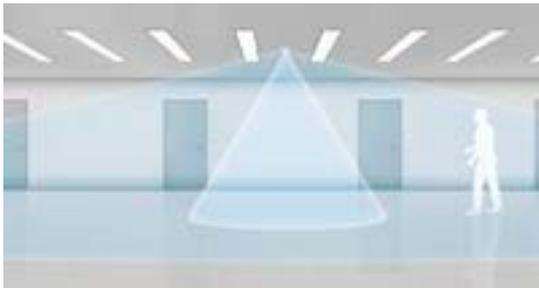

### Busch-Presence detector KNX

installation height	2,5 m	3 m	4 m
sitting*	8 m	10 m	14 m
walking	10 m	12 m	16 m

### Busch-Presence detector mini KNX

installation height	2,5 m	3 m	4 m
sitting*	5 m	6,5 m	9 m
walking	6,5 m	8 m	10,5 m

### Busch-Watchdog Sky KNX

installation height	4 m	6 m	12 m
walking	16 m	18 m	24 m

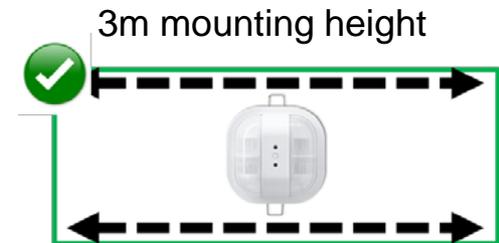

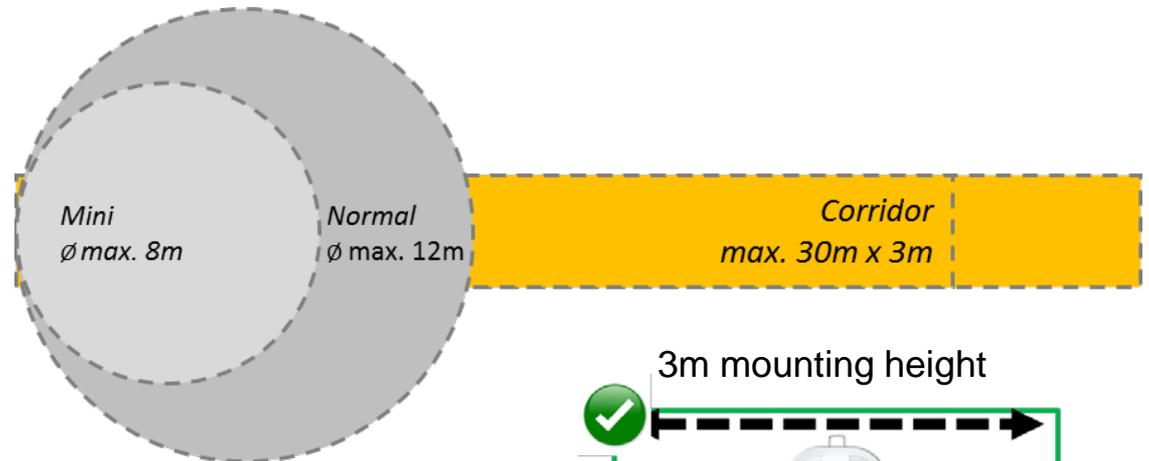

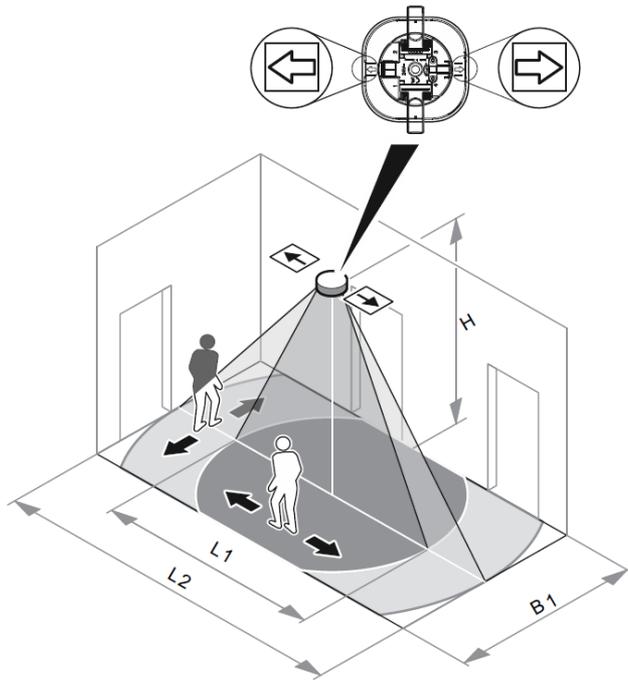

\* 0,8 m table height

# Busch-Presence detector KNX

## Detection overview / Comparison

### Busch-Presence detector Corridor KNX

installation height	Length [L2] x Width [B1] crosswise to the detector	Length [L1] x Width [B1] frontal to the detector
2,5 m	max. 24 m x 2.5 m	max. 18 m x 2.5 m
3 m	max. 30 m x 3 m	max. 20 m x 3 m
4 m	max. 30 m x 3 m	max. 20 m x 3 m

especially for corridors as well as long and narrow passageways

# Busch-Presence detector KNX

## Function overview

	Presence mini	Presence mini premium	Presence + Corridor	Presence premium + Corridor premium	Sky
Programming mode via IR remote control	--	x	--	x	x
Channels in sum	2	4	2	4	2
movement detector	2	4	2	4	2
constant light switch	2x2-channel	4x2-channel	2	4x2-channel	2
constant light controller	--	2x2-channel	--	2x2-channel	--
monitoring function	2	4	2	4	2
2-stage power-off (EN15232)	yes (only movement detector)	yes (movement detector + constant light controller)	yes (only movement detector)	yes (movement detector + constant light controller)	yes (only movement detector)
RTC + sensor	--	yes	--	yes	--
Logic channel	--	5	--	5	--
brightness sensor inputs	2	2	2	2	2
integrated bus coupler	yes	yes	yes	yes	yes
IR channel	--	12/24 and programming mode	--	12/24 and programming mode	Only programming mode
HVAC	--	yes	--	yes	--
PIR/ individually activatable	4	4	4 2 pairs (1+2 / 3+4)*	4 2 pairs (1+2 / 3+4)*	4

\* Only for Corridor

# Busch-Presence detector KNX

## Technical details

### 4 PIR system

- Digital PIRs
- Interferences are smaller with digital PIRs as with analogue PIRs
- Digital PIRs converts the received signal directly (in case of analogue you have to convert the signal externally)
- Digital PIRs can be amplified with less effect to amplify the interferences and white noise too (in comparison with analogue PIRs)

# Busch-Presence detector KNX

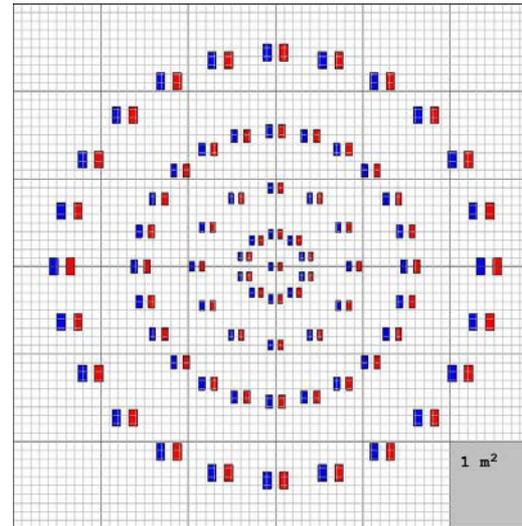

## Technical details

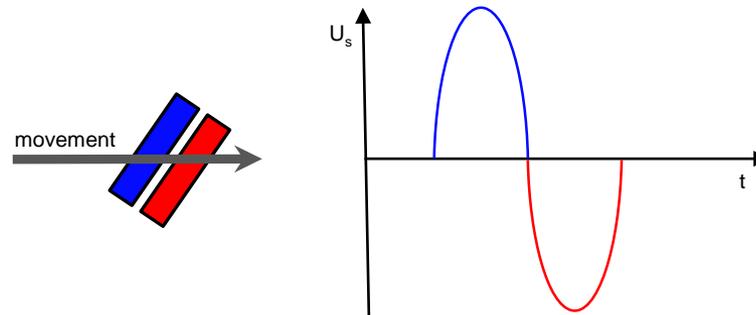

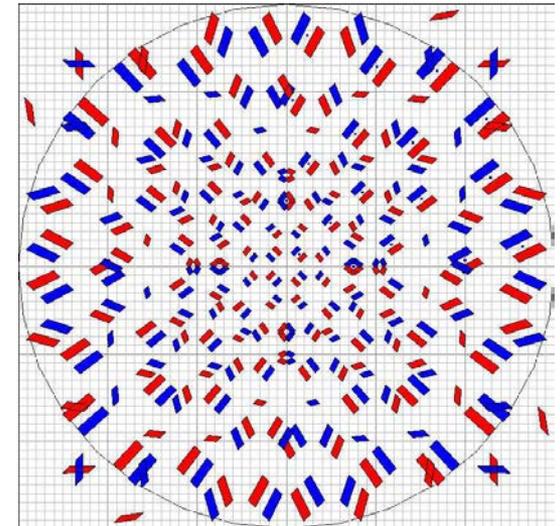

### Reflector system

- 4 PIRs acts like  $4 \times 4 = 16$  PIRs
- high detection density
- optimum of dispersion

1 sensor

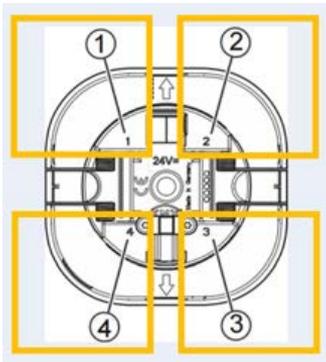

4 sensors with reflector system

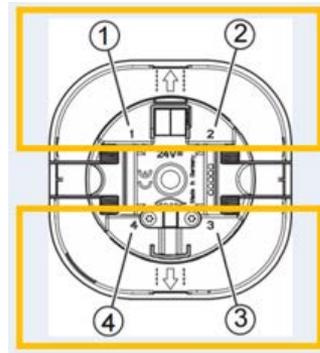

# Busch-Presence detector KNX

## Technical details - Differences of Presence detector Corridor

### Busch-Presence detector KNX

- Round detection range of max. Ø 12m in diameter at 3m mounting height
- 4 individual sensor groups can be switched

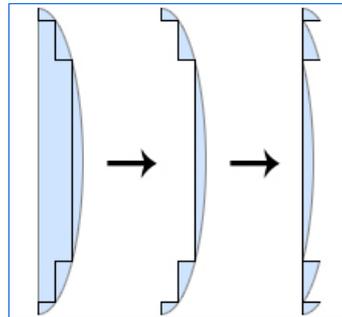

### Busch-Presence detector Corridor KNX

- Rectangular detection range of max. 30m x 3m (crosswise) or max. 20m x 3m (frontal) at 3m mounting height
- Sensor group 1+2 and 3+4 can be switched

# Busch-Presence detector KNX

## Technical details

Planconvex to Fresnel

### Fresnel lens

- Reduced thickness of the material  
(compared to planconvex)
- thinner = less sensitive against heat absorption
- alignment of the rings, combined with the different material thickness amplifies the IR signals

# Busch-Presence detector KNX

## Technical details

Basic and mini with black lens

Basic and mini with white lens

Sky/Corridor with transparent lens

### Colour of the lenses

- ➔ Black lenses let pass IR signals better than white lenses. Black lenses are used to aesthetic reasons in combination with silver frame. Perfect for dark ceilings.
- ➔ White lenses are used to avoid the believe of customers that there are a camera inside. White lenses absorbs the IR a little bit but the effectiveness of the white lens is for the purpose of where it is used not limited.
- ➔ Transparent lens has the best IR signal transmission. In that high where the Sky is installed the “think of camera” is not given.

Bus Update

# Busch-Presence detector KNX Bus Update

The screenshot shows the KNX website interface. At the top left is the KNX logo with a globe icon and 'English' language selection. A navigation bar includes 'Home', 'Shop', and 'Support'. Below this is a secondary navigation bar with 'Software', 'ETS Apps', 'Books', and 'KNX Specifications'. The 'ETS Apps' menu is open, listing various categories like 'All ETS Apps', 'Device Configuration Apps', 'Diagnostic', 'ETS App credits', 'ETS Commissioning' (highlighted), 'Graphical Project Design', 'Project Design', 'Project Documentation', and 'Project Export'. The main content area displays 'ETS Apps » ETS Commissioning' with sorting options for 'Name', 'Developer', and 'Price'. The featured product is 'KNX Bus Update by Busch - Jaeger Elektro GmbH'. The product image shows the app icon with the text 'KNX Bus Update' and the 'BUSCH-JAEGER' logo. The description states: 'The ETS app "KNX Bus Update" serves for the firmware update of various Busch-Jaeger KNX devices via the ETS (Engineering Tool Software). The current firmware files can be downloaded automatically from the Internet. The app can be used with ETS4 or higher.' To the right of the product is a price box showing 'Price €0', 'VAT exclusive', 'Plus shipping', and a green 'Buy' button with a shopping cart icon. A link '> Developer website' is located below the product image.

## T&Q Database

In this database you can find the complete online training portfolio for ABB Home and Building Automation

The database includes the following types of training content:

- Application Manuals
- E-Learnings
- Presentations
- Video tutorials
- Webinar slides and videos

**ABB** HOME > OFFERINGS > LOW VOLTAGE PRODUCTS > HOME AND BUILDING AUTOMATION > TRAINING & QUALIFICATION DATABASE GLOBAL SITE

## Training & Qualification Database

In this database you can find the complete online training portfolio for ABB Home and Building Automation.

The database includes the following types of training content:

- **Application Manuals:** Give a general description of the correct implementation of individual technical functions
- **E-Learnings:** Learning modules to specific topics
- **Presentations:** Pdf files with learning content
- **Videotutorials:** Short instructional videos to specific topics
- **Webinar slides:** Slides of webinar sessions in pdf format
- **Webinar Videos:** Recording of webinar sessions

## KNX Certified Training

Certified KNX Courses in Heidelberg

- Basic Course 03<sup>rd</sup> to 07<sup>th</sup> April
- Advanced Course 17<sup>th</sup> to 21<sup>st</sup> July
- Tutor Course 09<sup>th</sup> to 13<sup>th</sup> October

And many more training courses in the calendar “International Training Dates 2017”

# Busch-Presence detector KNX Next Webinar

## i-bus® Tool – Benefit in practice

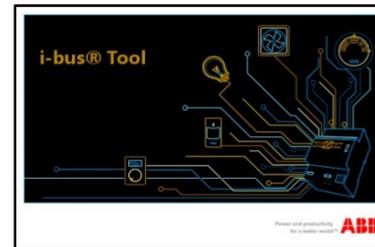

Wednesday 29<sup>th</sup> March 2017

- Morning 09:00 am Europe Time (Berlin, UTC + 1h)
- Afternoon 03:00 pm Europe Time (Berlin, UTC + 1h)

A professional Service Tool for KNX System Integrators

- Actual status
- Practical demonstration with various devices
- Options for testing and diagnostic

\* Topic is subjected to change
