

Power Transmission components

A century of proven solutions

ABB is proud to offer the complete line of Dodge® mechanical power transmission products. Dodge drive components have tackled the toughest power transmission applications, providing the lowest total cost of ownership for more than 100 years. With the most complete line of stock and custom fabricated sheaves, bushings and sprockets, no other company comes closer to providing absolute solutions to your power transmission requirements. Each of our mechanical components are engineered and manufactured to the highest standards, guaranteeing rugged performance and proven solutions.
