

ABB Special Report Process Automation Services & Capabilities

Industry insight

5
The perfect storm
New business opportunities are changing automation.

Operational excellence

9
Operational excellence
ABB is ensuring the consistency and quality of its service.

13
Remote optimization
Remote services improve organizational efficiency.

17
Evolving automation systems
Automation systems discover the meaning of life with ABB's Evolution for Life program.

21
Taking control of the human element
A proven approach to control room performance assessment is pushing ergonomics to a higher level.

25
Unlocking potential
Energy efficiency means going green while slashing costs.

30
Safe and sound
Compliance to IEC 61508 and IEC 61511 is raising the standard in safety certification.

35
Governing energy
Government buildings in Canada lead through example in energy management.

39
Putting people in control
Investments in people power secure competitiveness.

42
Steeling the show
IBM and ABB are raising the bar in steel manufacturing.

Reliability

47
The right part at the right time
ABB's customers need no longer shelve ambitions for better storeroom management.

50
Prevention is better than cure
Reliability Centered Maintenance (RCM) reduces the risk of equipment failure to a more than satisfactory level.

54
Making reliability sustainable
ABB's reliability and maintenance practices push processes to unprecedented performances.

58
RIS: The right move
The strategy for getting the most out of assets is called Reliability Integrated Solution.

62
Mapping production losses
ABB Loss Map is rerouting priorities.

Project design

66
Flawless project execution
Getting ABB on board from the beginning ensures customers get it right the first time.

70
Information exchange
Staying in the loop helps oil and gas companies accelerate.

74
The value of RAM
Industries are improving reliability, availability and maintainability by learning from the leaders.

Outsourced performance services

79
Outsourced maintenance
ABB Full Service® improves maintenance and production.

84
Contracting good health
ABB helps pharmaceutical companies stay fit.

88
A head start to profitability
Adopting Full Service saves more than nickel.
