ABB NORTH AMERICA

Arecibo, Puerto Rico
Facility Overview

What we do in Arecibo
The Arecibo facility designs and manufactures molded-case circuit breakers (MCCBs). These power components are essential in the distribution of electricity throughout industrial and commercial operations while protecting them from excessive current.

Who we serve
The MCCBs manufactured in Arecibo ensure safe and reliable power in critical industries such as oil & gas, marine, telecom/datacom, heavy industrial and commercial. Continuous operation is paramount for factories and facilities across industries. MCCBs help businesses stay up and running by ensuring quality power.

ABB in the U.S.
ABB is a pioneering technology leader that works closely with utility, industry, transportation and infrastructure customers to write the future of industrial digitalization, increasing productivity and boosting efficiency.
