

PRODUCT LIFE CYCLE STATEMENT

# ACS800 Regenerative and Low Harmonic Drives, air-cooled

## ACS800-17/-37 (55...110 kW)

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

**Active**

**Classic**

**Limited**

**Obsolete**

Full range of life cycle services and support

Limited range of life cycle services and support

Replacement and end-of-life services

**Product types concerned**

Product types	Power	Frames
ACS800-17 drives	55...110 kW	R6
ACS800-37 drives	55...110 kW	R6

**Current life cycle status**

Regenerative ACS800-17 and low harmonic ACS800-37 drives are in the Classic phase since 1.4.2019, according to the ABB life cycle model outlined above.

**Life cycle plan**

It is planned to keep ACS800-17/-37 (R6) in Classic phase 1.4.2019 at least until 31.12.2029, after which they will be transferred to the Limited phase.

**Product availability in Classic phase**

During the Classic phase new modules are available as spare parts for the following product types, until further notice:

ACS800-11	R6
ACS800-31	R6

Contact your local ABB representative for availability and factory-installed optional devices.

**Recommended actions**

It is recommended to follow the preventive maintenance program.

Full range of life cycle services and support are available during the Classic phase.
