ABB Care Contract Loyalty Offer

ABB Ability 800xA PLC Integration

Tightly connect third-party controllers, PLCs with 800xA, providing typical DCS and PLC functionality in the same integrated system.

Eliminate your islands of automation by using our PLC Connect technology and our great pricing to unify your automation equipment in 800xA.

PLC Connect makes it possible to configure System 800xA as a hybrid DCS/PLC system HMI connecting 800xA Controllers and PLC and 3rd Party DCS' in both single and redundant configuration for full visibility into your plant.

PLC Connect uses a Real Time Database that integrates into the 800xA Aspect/Object technology for full access and control of data in the PLC as if it was coming from an 800xA Controller. The flexible connectivity solutions using building on drivers or using standard OPC technology, every device can connect to our integration platform.

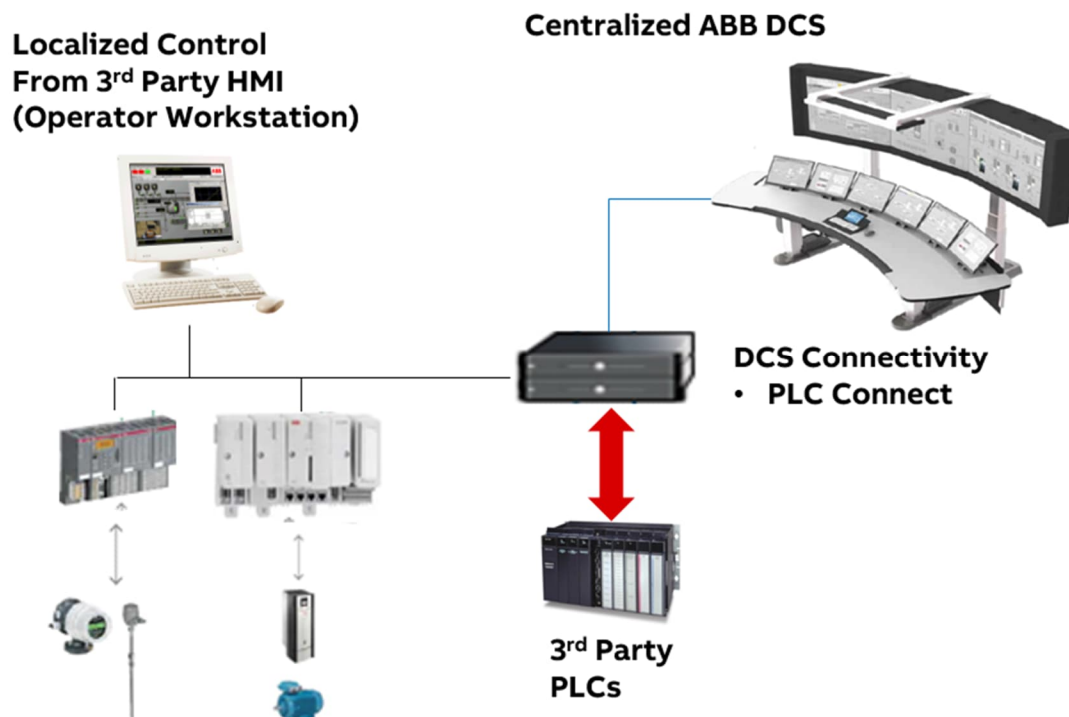

ABB is now offering this spectacular offer to integrate your older technology hardware/software into your 800xA automation system. ABB can also provide you with a quote to engineer and commission the new integration.
