General Notes:

1. This drawing does not show all functions available in REF615 configuration A relay. The functions shown are for a distribution feeder application.
2. PCM600 ACT (Application Configuration Tool) logic is shown in default state.
General Notes:

1. Style and code numbers for FT-1 switches provide black covers and handles, screw terminals and standard depth. Poles selection follows arrangement shown in this drawing set. For custom designs, different selection options can be made by using FT-1 configurator at ft1switch.com.

2. Refer to 615 series ANSI Installation Manual for relay and cutout dimensions (Document ID: MACCO51065-MB, Revision: D, Product version 4.0)
General Notes:

Binary I/O shown is from default PC660 Application Configuration Tool (ACT).

Connections shown are typical though more connections may be needed for specific application.
