Sr. No.	Course Name	Course No.	Days	Remarks	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec																																					
1	Basics of circuit protection and IEC/IS regulations	IN-T1	1	On Request																																																	
2	Solution for final distribution in an electrical network/residual current protection solution for polluted electrical network	IN-T2	1	On Request																																																	
3	Switching and protection solutions for renewable energy application - Wind	IN-T3	1	On Request																																																	
4	Switching and protection solutions for renewable energy application - Solar	IN-T4	1	On Request																																																	
5	Understanding application of lightening and surge protection	IN-T5	1	On Request																																																	
6	IEC/IS regulation in low voltage switchgear assembly	IN-T10	1	On Request																																																	
7	Application of circuit breakers	IN-T12	2	On Request																																																	
8	Circuit breakers - standards and regulations	IN-T13	1	On Request																																																	
9	Protection coordination and selectivity	IN-T15	1	On Request																																																	
10	Circuit breaker protection releases	IN-T16	1	On Request																																																	
11	Selection of circuit breakers - application based	IN-T17	1	On Request																																																	
12	Fuse technology in power distribution	IN-T18	1	On Request																																																	
13	Motor control & protection	IN-T19	1	On Request																																																	
14	Intelligent motor management solutions	IN-T21	1	On Request																																																	
15	Application specific selection of contactors	IN-T24	1	On Request																																																	
16	Method of starting induction motors	IN-T25	1	On Request
