
ABB Ability™ System 800xA

Compact Product Suite Learning Path

Compact Product Suite Learning Path

Our Learning Paths illustrate the sequence that our courses should be taken to learn how to perform general, operation, maintenance, or engineering functions on specific ABB products or systems. Click on any block in the course flow diagram to reveal the course description for that course.

Legend

- Classroom course. Required.
- Web-based course. Required.
- Classroom course. Optional.
- Web-based course. Optional.
- Dotted line indicates that courses are equivalent and each provides the desired learning outcome.
