

# PORTLAND, TENNESSEE

## Facility Overview

### LOCATION

200 Challenger Drive  
Portland, TN 37148

### OFFERING

Electrification  
Installation Products

### WORKFORCE

215

### OPERATIONAL SINCE

1990

### What we do in Portland

Portland is the largest manufacturer of electrical junction boxes in North America. ABB's Carlon® electrical boxes are ubiquitous in homes and buildings for electrical outlets, light switches, and wiring. Placed behind the wall, our electrical boxes protect against short circuits which can cause fires.

### Who we serve

ABB's electrical boxes can be purchased at hardware stores, large and small. With a typical home having over 100 electrical boxes, ABB plays a key role in ensuring the safety of electrical systems in homes and businesses.

## ABB in the U.S.

ABB is a global technology leader in electrification and automation, enabling a more sustainable and resource-efficient future. The United States is ABB's largest market, and we have significantly expanded our operations across the country through strategic acquisitions and investments.
