

NAM SERVICES

## Power Protection Services

### Reliability enhancement programs

The reliability enhancement program for static transfer switches (STS) and UPS systems is designed to restore mission critical reliability to the performance of aging products.

To schedule service call:  
800 CYBEREX  
(292 3739)

It is recommended that a scheduled preventative maintenance service be performed by a certified Cyberex equipment services field engineer. To sustain STS and UPS reliability over time, we recommend our latest enhancements as well as our improved component replacement to extend the service life of your products.

#### 5 year service plan STS & UPS

##### Features

- Thorough system cleaning
- Preventative maintenance
- Thermo scan
- On-site service upgrade
- Complete unit evaluation
- Trained certified Cyberex equipment services field engineer
- Battery analysis and battery refresh (UPS products only)
