

IN PERSON TRAINING

ABB Electrification product training

Motor protection and control

Join ABB Electrification for one of our 2024 motor protection and control products training opportunities. Attendees will learn about ABB's portfolio including how to order and control diagrams. Hands-on component and system assembly will also be covered.

Primary products include: molded case circuit breakers, motor contractors and overloads, disconnect switches, miniature circuit breakers, pilot devices, measuring and monitoring relays, and more

Class schedule:

Day 1 and Day 2 morning: General product training

Day 2 afternoon: Hands-on training of various motor starter and control combinations and accessories

Day 3: Tour Senatobia, MS manufacturing facility

Day 1 and 2 will be held at the ABB Memphis office (860 Ridge Lake Blvd., Memphis, TN 38120). Shuttle service will be provided on Day 3 for Senatobia manufacturing facility tour. Class is schedule to conclude on Day 3 by 1:00 pm at the ABB Memphis office.

Class fee:

\$550 per person - payable via marketing development funds

Cost includes course instruction and materials, daily breakfast and lunch, and group dinner after day 1 classes, along with shuttle service for the tour of the Senatobia, MS manufacturing facility.
