

PRODUCT SHEET

ExpressTray®

Cable management systems
for power, voice and data cables.

- Reduce installation time up to 50%
- Save time
- Save money
- Increase flexibility

Get the job done in half the time, save on your installation cost, increase your routing flexibility

ExpressTray wire basket tray is available in a range of materials and finishes to simplify installation and provide superior performance whatever the installation environment.

Data Centres

Need total protection for data centres? Prevent the formation of zinc whiskers with ExpressTray stainless steel, hot-dip galvanized steel or epoxy-coated steel basket tray.

Food & Beverage Processing

When hygiene is critical, ExpressTray stainless steel basket tray is the solution. Easy to maintain and highly corrosion resistant, it prevents dirt build-up and provides unimpeded liquid drainage.

Shipbuilding

Lightweight and flexible, ExpressTray stainless steel or hot-dip galvanized steel tray is the perfect solution in places like marine vessels where saving space is essential.

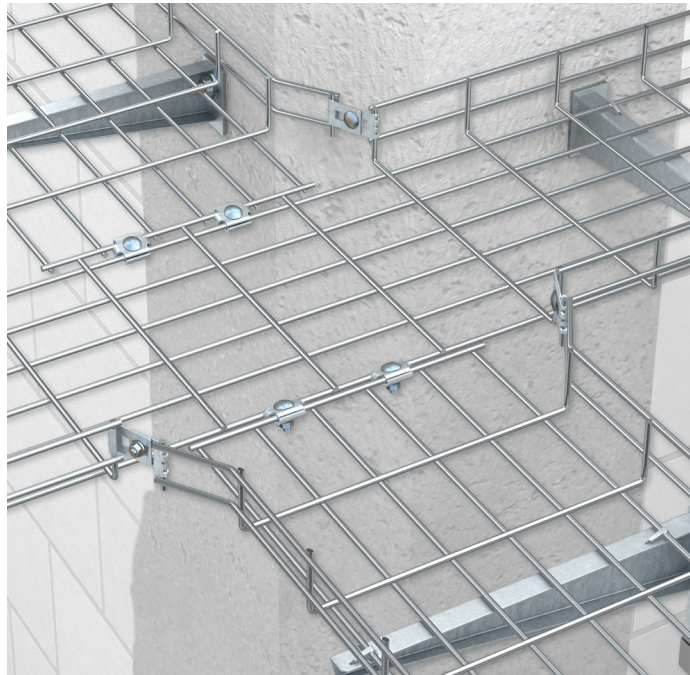

Harsh Environments

In harsh environments, ExpressTray stainless steel basket tray offer corrosion and chemical resistance as well as the ability to withstand extreme temperatures.

Solution Sets

- Total Project Cost Reduction
- Corrosion & Harsh Environment Protection

Save time

QuikLok® tray connections at record speed

- In any project, installation time is key.
- Our patented QuikLok tray connects straight lengths of tray at record speed.
- No connection components or tools are required.
- Available in 2 and 4 inches depths.

Insert.

Push down.

Increase flexibility

Adaptable tray for an easier installation

- The ExpressTray system requires no corner, crossing or bend elements.
- Any layout can be achieved, any obstacle overcome, simply with a length of tray and a pair of wire cutters.
- **Safety glasses are recommended when cutting wire tray**

A solution for all spaces

Check-out ExpressTray popular accessories

ExpressTray wire basket tray is offered in depths from 2 to 6* inches and in widths from 4 to 24 inches. To meet the needs of a wide range of installation environments, it is available in electro-galvanized and hot-dip galvanized steel as well as stainless steel and epoxy painted.

A full range of splices, brackets, accessories and hardware is available as part of the ExpressTray wire basket tray offering.

02

03

04

05

—

01

Splices

To connect straight lengths, bends, angles or joints. Various splices are available and simply require a pair of pliers or nut driver to assemble.

- Universal splices
- Adjustable splices
- Quick Splices

—

02

Brackets

Support basket tray using our TabLok™ brackets that eliminate the need for additional hardware.

- Straight brackets
- "J" brackets
- "L" brackets

—

03

Clamps

Secure large cable dropouts to the end of cable runs or construct trapeze and center-hung supports with threaded rod; whatever the configuration, there's a clamp to meet your needs.

- Side hanger clamps
- Universal clamps
- Threaded rod clamps

—

04

Lay-in-lug

Easily installs, no disassembly required, its slotted hook design sits securely onto the mesh intersections to restrict swiveling.

—

05

Bat clip

No tools required, reduces installation time to a minimum.

To install, hook one wing under the strut flange and push down the other wing with your thumb to slip it under the strut flange.

* 6 in. not offered with Quiklok®

ExpressTray, the fast track in cable management systems for power, voice and data cables.

Complicated cable routing layouts become simpler with ExpressTray. Once you are familiar with the basic configuration, the possibilities are unlimited. Here is a sample guide to ExpressTray basics as an inspiration for future projects.
