New Berlin, Wisconsin

Facility Overview

**What we do in New Berlin**
Design, manufacture, repair, and refurbish low and medium voltage drives for domestic and export sale. These drives help to improve manufacturing processes and energy efficiency by providing precise motor control on applications in HVAC, water and wastewater, and industry.

**Who we serve**
ABB drives are used in a variety of applications including commercial buildings, hospitals, dairies distribution centers, refineries, mines, breweries, theme parks, water treatment plants, manufacturing facilities, quarries, and more. The majority of the ABB drives installed in North America are manufactured at the New Berlin facility.

**ABB in the U.S.**
ABB is a pioneering technology leader that works closely with utility, industry, transportation and infrastructure customers to write the future of industrial digitalization, increasing productivity and boosting efficiency.

**Location**
16250 W. Glendale Drive

**Operational since**
1988

**Number of employees**
360

**Offering**
Variable Frequency Drives (VFDs)

---

**Number of manufacturing or assembly sites**
> 60

**$14b invested since 2010**

**ABB employees**
24,000

**Major R&D centers**
9
