
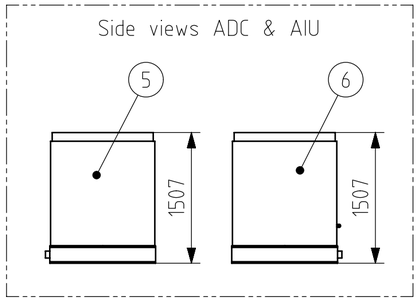
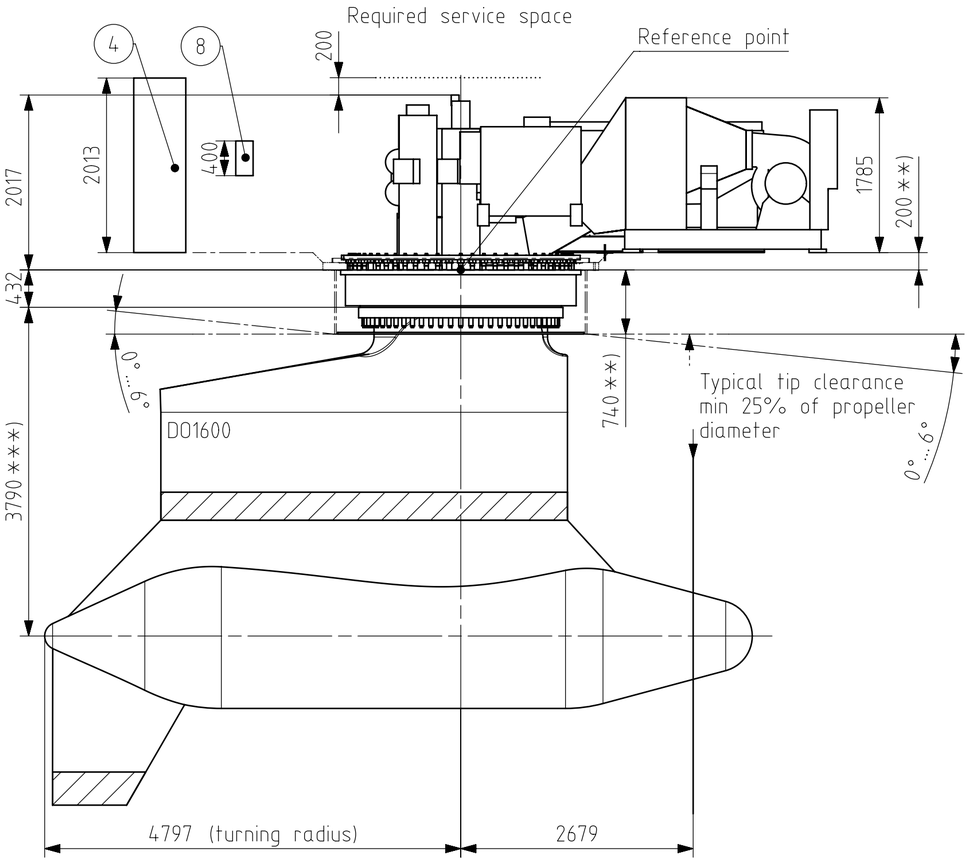
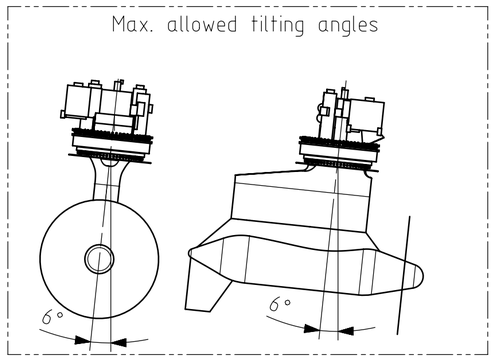
**) Consult Azipod Sales for other heights

***) Available Strut heights:
3790mm
Consult Azipod Sales for other heights





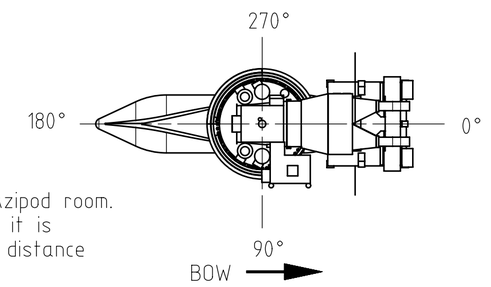
Note! Layout not to be mirrored to PS/STB
Required service area inside dashed line.



Project specific structure

Number	Part	Weight [kg]
1	Steering module	14000
2	Propulsion module	78000
3	Cooling air unit (CAU)	4700
4	Steering drive cabinet	500
5	Azipod interface unit (AIU)	440
6	Auxiliary device cabinet (ADC)	460
7	Junction box (JB1)	470
8	Local Backup Unit	30

Mounting angle for steering
module and CAU can be selected
freely in 90°steps. 0° is standard.



*) AIU and steering drive cabinets can be located freely inside Azipod room.
ADC cabinet can be located freely inside Azipod room as long as it is
horizontally less than 5m from steering module and Max. vertical distance
from shaftline to ADC cabinet is less than 6m.

PRELIMINARY
Not to be used
for construction.
